The CIONET European Research Paper of the Year for 2014 is "Knowing What a User Likes: A Design Science Approach to Interfaces that Automatically Adapt to Culture" by Katharina Reinecke and Abraham Bernstein. The paper, which appeared in the June 2013 (37:2) issue, is the first paper *MIS Quarterly* published as open access.

For more information on the award, go to the CIO City 2014 website and click on the ERPOTY tab, or view the YouTube presentation.
